Fifth-semester Computer Science student at Bina Nusantara University with skills in software development, particularly web and mobile application development. Experienced in developing academic and personal projects using Laravel, React Native, TypeScript, MySQL, and Python, as well as working with UI/UX design and artificial intelligence. Currently interested in expanding my knowledge and experience in software development.

EDUCATION

Bachelor's Degree in Computer Science, Bina Nusantara University 2024 - Present

- Current GPA: 3.8/4.00

High School - SMAN 2 Purwakarta 2021 - 2024

- Final grade: 90.3/100

PROJECTS

Trimly – Salon Booking Mobile App (Full-Stack Mobile App Developer) JUL 2026 - Sept 2026

- Developed a mobile application for discovering salons, exploring services and stylists, saving favorite salons, and booking appointments.
- Designed the UI/UX and implemented the application using React Native, Expo, TypeScript, Laravel API, and MySQL.
- Implemented user authentication, API integration, and appointment booking flows.

CanCap Detect – Web Application (Front-End Developer & Machine Learning Contributor) FEB 2026 - Jun 2026

- Developed a web-based application for detecting defects in cans and bottle caps.
- Developed the front-end interface using Laravel Blade, HTML, CSS, and JavaScript.
- Assisted in training YOLO models for defect detection and classification using computer vision.

EduForm – Web Application (UI/UX Designer & Front-End Developer) MAY 2025 - Jun 2025

- Designed and developed a training registration website using Figma, HTML, CSS, and JavaScript.
- Implemented registration forms, navigation, validation, and user feedback features.
- Conducted user testing with five participants and improved the interface based on the feedback.

ORGANIZATIONAL EXPERIENCES

Freshmen Leader – First Year Program BINUS University AUGUST 2025 - SEPTEMBER 2025

- Guided and mentored new students during the orientation program to adapt to university life.
- Facilitated team activities to build engagement, leadership, and collaboration among freshmen.

Freshmen Partner – First Year Program BINUS University SEPTEMBER 2025 - January 2026

- Assist new students with academic and non-academic transitions during their first year of college.
- Act as a peer mentor by providing support, answering questions, and encouraging active participation.

Activist Event and Worship Division – BINUS University 2025 - Present

- Developed themes, objectives, and target audiences for weekly worship services and annual fellowship events.
- Assisted in preparing event rundowns and coordinating the flow of worship services and events.
- Contributed creative ideas for worship services and fellowship events to support their planning and implementation.

SKILLS

Programming Languages: C, JavaScript, TypeScript, PHP, Python, HTML, CSS

Frameworks: Laravel, React Native, Expo

Database: MySQL

AI/Machine Learning: YOLO, Computer Vision

Tools: Figma, Git, GitHub, Google Colab, Roboflow, VS Code

LANGUAGE

Indonesian – Native

English – TOEFL ITP Score: 490
